Dear Mr. Zeilinger, dear Wolfgang,

I would like to thank you again on behalf of the World Bank for yesterday's visit and very stimulating and interesting discussions. It allowed me and Patricia to learn more about how the Austrian water sector, particular in rural areas, is very well organized and can serve as a role model for many other countries in the region.

I will try to join one of the OO-wasser courses to enhance my practical training in the subject and have some real-life exposure to the important work you are doing,

And thank you of course to Reinhard for putting together such an interesting day!

With very best regards,

Susanna
